SUMMARY

Highly skilled Full Stack Developer with 2 years of hands-on experience in Salesforce platform management, Apex development, Lightning Web Components (LWC), ASP.NET, and Java full-stack development. Proficient in designing and implementing scalable solutions to streamline business processes and enhance user experiences. Currently pursuing a Master's in Computer Science and holding certifications in Salesforce and Java Full Stack Development. Passionate about leveraging technology to drive innovation and deliver impactful results.

SKILLS

Front-End	HTML, CSS, Java Script (JS), Angular, Bootstrap
Back-End	Java, Spring Boot, Asp.net, C#
Database	SQL, MySQL
Salesforce	Apex, Visualforce, Lightning Web Components (LWC), Salesforce Administration, Process Builder, Flow, REST/SOAP API Integration.
Programming Languages	C, C++, Python
Tools	Git, RESTful API's, Debugging and Testing
Additional Skills	Problem Solving, DSA, OOP

EXPERIENCE

Sacred Heart University | Classroom Learning Assistant (CLA)   *Bridgeport, USA* | **01//2025 - Present**

- Assist the instructor during lectures by answering student questions, helping with in-class exercises, and clarifying complex data structure concepts.
- Hold scheduled office hours outside of class to provide additional support, answer questions, and offer guidance on assignments and projects.
- Help grade assignments, quizzes, and exams, ensuring consistency and providing constructive feedback to students.
- Create and maintain supplementary learning materials such as study guides, practice problems, and tutorials to aid student understanding.
- Mentor students by offering advice on study strategies, helping them overcome learning challenges, and encouraging active participation and engagement in the subject matter.

Wipro Limited | Project Engineer   *Hyderabad, India* | **09/2022 - 12/2023**

- Joined as a Java Full Stack Developer, contributing to the design, development, and maintenance of web applications using Java, Spring Boot, Angular, and MySQL.
- Gained expertise in building RESTful APIs, optimizing database queries, and creating responsive front-end interfaces.
- Transitioned to the role of Salesforce Developer, leveraging my programming background to design and implement custom Salesforce solutions.

- Developed and customized Salesforce applications using Apex, Visualforce, and Lightning Web Components (LWC) to meet business requirements.
- Integrated Salesforce with external systems using REST/SOAP APIs and implemented automation tools like Process Builder and Flow.
- Collaborated with cross-functional teams to deliver scalable and efficient solutions, ensuring seamless user experiences and improved business processes.

Lovely InfoTech | Full Stack Developer   *Punjab, India* | **01/2022 – 06/2022**

- Developed and maintained a Student Academic Administration system as part of a full-stack project.
- Designed and implemented dynamic web pages using HTML, CSS, Bootstrap, and JavaScript for responsive and user-friendly interfaces.
- Utilized ASP.NET for backend development, ensuring efficient data management and integration of various modules related to student records.
- Collaborated with teams to ensure smooth functionality and enhanced the system's user experience by incorporating feedback.
- Gained expertise in web development, database management, and full-stack application architecture.

EDUCATION

SACRED HEART UNIVERSITY | *Master's in Computer Science*   *Connecticut, USA* | **Jan 2024-Present**

- Cumulative **GPA:** 3.85/4.0

LOVELY PROFESSIONAL UNIVERSITY | *Bachelor's in Computer Science*   *Punjab, India* | **2018-2022**

- Cumulative **GPA**: 7.42/10.0

PROJECTS

Restro Realm

- Developed a full-stack restaurant website enabling users to browse menus, place orders, and manage reservations.
- Front-End: Built a responsive and user-friendly interface using Angular, HTML, CSS, and Bootstrap.
- Back-End: Implemented RESTful APIs and business logic using Java and Spring Boot for seamless order processing and user management.
- Database: Designed and managed the database using MySQL to store menu items, user data, and order details.
- Functionalities: Integrated features like user authentication, order tracking, and payment gateway integration.
- Tools: Used Git for version control and followed Agile methodologies for efficient project management.

Job Hunt App

- Developed a full-stack job search application to streamline job applications and searches for users.
- Front-End: Designed responsive and intuitive user interfaces using HTML, CSS, and JavaScript for seamless navigation.

- Back-End: Built RESTful APIs and implemented business logic using Java and Spring Boot to handle resume management, application tracking, and job postings.
- Database: Integrated MySQL to efficiently manage user profiles, job listings, and application data.
- Functionalities: Enabled features like resume upload, application status tracking, and job search filters to enhance user experience.
- Tools: Utilized Git for version control and followed Agile practices for collaborative development.

Student Academic Administration

- Developed a robust academic management system using ASP.NET to streamline and modernize administrative processes in educational institutions.
- Front-End: Designed responsive and user-friendly web interfaces using ASP.NET MVC and front-end technologies for seamless user interaction.
- Back-End: Implemented a centralized platform to manage student data, academic records, and institutional resources efficiently.
- Database: Designed and optimized database structures using SQL.
- Functionalities: Enabled features like student data management, academic record tracking, and resource allocation for administrators.
- Tools: Utilized Git for version control and followed Agile methodologies for collaborative development.

CERTIFICATIONS

- Java Full Stack under the Wipro Velocity Program
- Salesforce Administrator
- Salesforce Platform Development I
- Salesforce Associate
- Salesforce AI Associate
- Salesforce Copado
